Abstract of CN1166342

The Chinese medicine preparation is prepared with Radix Bupleuri, Chinese angelica, red sage, Radix Paeoniae Rubra, Radix Polygoni Multiflora and other Chinese medicinal materials as active components, which are compounded with medicinal supplement into oral liquid, granule, tablet or capsule. It has obvious curative effect to fatty hepatitis, hepatocirrhosis, chronic hepatitis B and chronic hepatitis C. The preparation process of the present invention is simple and low in cost and is suitable for industrial production.
